ABOUT

Detail-oriented full-stack web development graduate with excellent understanding in design from Langara College (GPA 3.6), seeking an entry-level front-end/full-stack developer position. I am currently living in Vancouver and have a 3-year work permit.

The accuracy of my design implementation was considered to be particularly high in the HTML/CSS(Sass) class in college. As a result, I was offered an internship job for a college's promotional website.

I have worked on multiple full-stack projects and am always excited about learning new languages/technologies. Currently, I am learning GraphQL(Apollo), Mongo DB, and MySQL.

EDUCATION

Langara Collage, Vancouver — *Diploma* Web and Mobile App Design and Development (Development Stream)

2020 - 2022

Full Stack Development (JavaScript, React, Node.js, SQL, NoSQL, web security, cloud-based server management with AWS, Linux, and Bash, project management basics, design tool basics including Photoshop, Illustrator, Figma, XD)

Each term had its own team project. All three team projects from Langara college were built with React.js/React Native with Mongo DB/MySQL and Node.js with Scrum project management.

Rikkyo University, Tokyo — *Degree* Philosophy and Creative Writing

2013 - 2019

Literary criticism, Modern Philosophy, Sociological analysis, Ethics

PROJECTS

Portfolio Website — *Personal Project*

Sept 2022 - Nov 2022

A portfolio website to showcase all of the projects I've worked on.

<https://azusa-nakahashi-portfolio.vercel.app>
