SKILLS

Front-End: HTML, CSS(Sass), JavaScript, TypeScript, React.js, Redux, React Native, Next.js
Back-End: Node.js, Express, MySQL, MongoDB, Firebase, Linux, Bash
Tools & Platforms: Git(Github), Webpack, AWS, Heroku, WordPress, Trello, Asana, Slack
Design: Photoshop, Illustrator, Figma, Adobe XD

EDUCATION

Langara College, Vancouver 2020 - 2022

Web and Mobile App Design and Development (Development Stream) *Diploma*

- Full Stack Development (JavaScript, React, Node.js, SQL, NoSQL, web security, cloud-based server management with AWS, Linux, and Bash, project management basics, design tool basics including Photoshop, Illustrator, Figma, XD)
- Multiple team projects with React.js/React Native with Mongo DB/MySQL and Node.js with Agile(Scrum) project management.

Rikkyo University, Tokyo 2013 - 2019

Philosophy and Creative Writing *Degree*

- Modern Philosophy, Sociological analysis, Ethics

PROJECTS

Personal Projects

Portfolio Website Sept 2022 - Nov 2022

- Next.js, TypeScript, Redux, Node.js, Express, Git
- A portfolio website to showcase all of the projects I've worked on
- Live website <https://azusa-nakahashi-portfolio.vercel.app>

Wherever Weather May 2022 - July 2022

- Next.js, TypeScript, Redux, Node.js, Express, REST API, Git
- A web application that allows users to search for the weather of a specific location/area on GoogleMaps by current user location, search bar, tapping
- Live website <https://wherever-weather.vercel.app>

College Projects

Grabo

Sept 2021 - Dec 2021

- Full-stack Development with React Native, Redux, Sass, Node.js, Express, MongoDB, AWS, Git
- A community-based native mobile application that helps people buy appropriate foreign food products by providing a platform where they can exchange information about foreign food products.
- GitHub: <https://github.com/satoshinbp/grabo>

Pet Paws

May 2021 - Aug 2021

- Full-stack Development with React.js, Sass, Node.js, Express, MySQL, Firebase, Git
- A web application for pet owners to keep track of their pet's exercise and calorie intake.
- GitHub: <https://github.com/satoshinbp/PetPaws>

Cheers!

Jan 2021 - April 2021

- Build with React.js, Sass, Firebase, Git
- A web application that offers guidance in purchasing alcohol, through map and review functions.
- GitHub: <https://github.com/nori3506/cheers>

JOB EXPERIENCE

Langara College WMDD program showcase website

Jan 2021 - April 2021

- Planning Sitemap, Wireframes, Mockup, creating design assets
- Live Website: <https://langara-app.vercel.app/>
- About the project: <https://langara-app.vercel.app/about-this-site>

ABOUT

- Detail-oriented full-stack web development graduate with an excellent understanding of design from Langara College (GPA 3.6), seeking an entry-level front-end/full-stack developer position. I am currently living in Vancouver and have a 3-year work permit.
- The accuracy of my design implementation was considered to be particularly high in the HTML/CSS(Sass) class in college. As a result, I was offered an internship job for a college's promotional website.
- I have worked on multiple full-stack projects and am always excited about learning new languages/technologies. Currently, I am learning GraphQL(Apollo), Mongo DB, and MySQL.
